

CONDITION NOW IS DEPLORABLE

Outlook in Russia is More
Gloomy Than Ever
Before.

STRIKE SPREADING TO ALL

Organizations Including Bank
Clerks, Telephone Girls,
Professional Leagues.

MANCHURIAN ARMY IN MUTINY

St. Petersburg, Nov. 17, 2 p. m.—The outlook for an early collapse of the strike is more gloomy today. The situation is distinctly more menacing. Councils of workmen's delegates, or strike committees, are manifestly encouraged by the extension of the strike in St. Petersburg, various organizations, including bank clerks, telephone girls and some professional leagues, having voted to join the movement.

Moreover, it is certain that the workmen's council has received mysterious supplies of funds, and consequently, they present a bolder front. The workmen's council returned a scornful reply to Count Witte's personal appeal to his "brother workmen," ridiculing the government's profession of solicitude for the workmen, and renewing their demands for immediate abolishment of martial law in Poland, etc.

Count Witte's attempt to negotiate directly with the strike leaders has come to naught, although he offered concessions in the case of the Cronstadt mutineers in the event of their being condemned to death. But the leaders refused all compromise. "All or nothing," was their response.

News from the provinces show that practically no movement has been started there in support of the general strike, but there is a suspicion that this may be only a lull of preparations. The social democratic and revolutionary are keeping their plans dark. Their organizations have ramifications throughout the country, and at a signal they might be able to bring the industries of the country to a standstill.

Manchurian Army Mutinies.
Mutiny in the Manchurian army is the latest sensational rumor in this city. According to report a dispatch has been received from General Linévitch, telling him of revolt among the troops, which was suppressed only after a regular fight in which many soldiers were killed and wounded. Forty-two officers are reported to have been shot for participation in the conspiracy. No confirmation of the rumor is obtainable from officials of the war office.

Liberals Profoundly Depressed.
Profound depression has seized the Liberal camp. Many of the leaders now believe that they made a fatal blunder in rejecting Witte's request for co-operation with the government in working out reforms, as they thereby practically surrendered the leadership to the radicals, with whom the liberals have a little sympathy as they had with the old regime. The result is that the radicals are intoxicated by a taste of power and are now trying to drive the country to anarchy. Public sympathy is rapidly alienating itself from them, and, rather than the prescription of demoralization, a large portion of the better classes would almost prefer repression.

JEWS IN RUSSIA GREATLY IN NEED

New York, Nov. 17.—Jacob H. Schiff of this city, today received the following cablegram from Lord Rothschild in London: "The Russian catastrophe, according to details from Russia, are far graver than we had expected. Outrages, murder, wholesale robbery and incendiarism are reported from eighty-four towns. So the relief fund has a huge task to grapple with."

JORDAN FOUND MOTHER BUT NOT HIS FATHER.

New York, Nov. 17.—Frank B. Jordan, son of the former controller of the Equitable Life Assurance society, was the first witness today in the insurance investigation. He testified at the previous sessions that he did not know the whereabouts of his father or mother. He testified today that he has since that time, received a letter from his mother in Canada, but that she did not mention his father, and that he is still in the dark regarding his whereabouts. Samuel S. McCurdy, assistant registrar of the Equitable, was the next witness called. He produced vouchers for the legal expenses for the last ten years.

W. H. HULL DIES SUDDENLY AT HIS PLANING MILL.

W. H. Hull, one of the proprietors of the Albuquerque Planing mill, located on South First street, died rather suddenly at his place of business at 1 o'clock today. Mr. Hull's death came at the end of a sinking spell, which began at 11 o'clock, when he called one of the employees from the mill to the yard back of the mill where he was working. He said that he was going to die and would like to have a doctor. Dr. W. G. Hope was called. Death was due primarily to tuberculosis for which the deceased came to New Mexico to escape eight years ago. The deceased was 36 years of age and has a family residing at 1217 South Broadway. He also has a brother residing here. He was a member of the local carpenters' union. The funeral will probably occur here on next Sunday.

A FEW PENNIES MORE; NO STRIKE AND STRUGGLE FOR BARE LIFE GOES ON

Thirty Thousand Men, Women and Children in the Cotton Mills of Fall River Escape Horrors of a Lockout.

A Boy Operative Barefoot in November.

Fall River, Mass., Nov. 17.—There will be no strike by the 30,000 men, women and children who work in the cotton mills. The unions and the employers have made an agreement, to last for one year. The workers will get a few more pennies for a day's labor, and many are rejoicing at the bare thought of being assured of toll all of the coming winter.

The strike of last winter lasted six months and ended with the operatives working at 14 percent, the employers promising Governor Douglas, who intervened, that they would restore the cut when market conditions warranted the action.

A few days ago Matthew C. D. Borden, owner of some of the largest cotton mills, restored the cut in wages in full. When other employers betrayed no intention of following suit, unrest quickly developed, and a general strike was threatened. This has just been averted by a compromise increase amounting to a little more than half that granted by Borden.

Union men here say that Borden is fair to his employees. Rival manufacturers say that he is more favored by operating conditions, and can afford to be more liberal. Employers claim hard times—and trade conditions have undoubtedly been better—but the stockholders in the various mills receive dividends regularly. They average 4 per cent. The stock is held mainly by New England people in moderate circumstances, and it is said that pressure brought to bear by such stockholders upon the mill managements forced the wage compromise.

Strike or no strike, the labor host of men, women and children in this dull, gray town are always battling for scant livelihood. Every one works in Fall River—husbands, wives and children. It has been so for years. Women more often support their husbands than husbands support their families. Piece work is the plan in all of the mills. A woman or child, working in the mill, can earn more at the loom. School certificates are given children at 14, if efficiency in their studies warrants it. If not, in order to work, they are compelled to attend night school until they gain efficiency or until they are of age.

Ten and one-half hours is a work day. Most of the workers continue to run their machines through the lunch hour for added profits. More than one-half of all the workers are women and children.

peace, and jury, who sat upon the inquest held this 17th day of November, A. D. 1905, on the body of John Murphy, or John F. Murphy, found in precinct No. 26, of the county of Bernadillo, find that the deceased came to his death by reasons of accidentally falling down the stairs of his rooming house, at 821 South Third street, between the hours of 9 o'clock p. m., November 16, and 6 o'clock a. m., November 17, A. D. 1905.

GEORGE P. CRAIG, Justice of the Peace, WALTER S. JONES, B. MYER, NATHAN BARTH, JOHN W. NUCKOLLS, C. A. GONZALES, JOHN HENRY, Jurors.

TEXAS FLOWER PARADE
FAIR AND CARNAVAL

Houston, Tex., Nov. 17.—This is the date for the great flower parade which is to be held here this afternoon in connection with the State Fair and Carnival. It is expected to be the crowning event of the week and thousands of visitors have come here from all parts of the state to witness the magnificent spectacle.

Judging from the large number of entries for the event it is believed there will be nearly a hundred decorated vehicles of all kinds, drawn by horses or automobiles. In the parade, which will start promptly at 2 o'clock this afternoon, a number of valuable prizes will be awarded for the most beautifully decorated vehicles in the various classes.

ABANDON THE CHASE
FOR WILLARD BANDITS

Special to The Citizen.
Santa Fe, N. M., Nov. 17.—The big man hunt that has been going on near Willard, where the Santa Fe Central railway, in Torrance county, for the bandits who on Monday night last held up the station agent at Willard and robbed him of a large sum of money, has been abandoned. General Manager S. B. Grimshaw, of the Santa Fe Central, who was on the scene shortly after the robbery, with the penitentiary bloodhounds, returned to the city last night. The dogs failed to make the scent, owing to the trail being obliterated by heavy frost. It is now believed that the robbers are far away and that they will never be apprehended.

RUSSIA'S FINANCIAL CONDITION
CAUSES GERMAN CONSTERNATION

Berlin, Nov. 17.—German holders of Russian securities are beginning to feel extremely uneasy over the situation in Russia, as they realize that it is bound to affect adversely the economic conditions of the Russian empire and the financial standing of the government. Popular upheavals like those in Russia at the present time unsettle more than a war compromise and industrial conditions, paralyze capital and cripple the resources of the government. The foreign holders of Russian securities are greatly interested in the future of the empire and devour the disquieting reports of riot and bloodshed with avidity. Many millions in Russian securities are in the hands of German capitalists and to that extent they are interested in the preservation of Russia's financial integrity.

TYPICAL FALL RIVER COTTON MILL OPERATIVE FAMILIES.

BETTER LATE THAN
NOT TO COME AT ALL

Rebate Suit Against Railroads
Brought March, 1902,
Are Now
BEING HEARD FOR FIRST TIME

Kansas City, Nov. 17.—The hearing of the railroad rebate cases brought by the federal government in March, 1902, on behalf of the federal government against the Santa Fe railway, the Burlington, the Missouri Pacific, and the Rock Island, was begun here today in the United States district court before Judge John W. Phillips. The arguments on behalf of the government were presented by Milton D. Purdy, assistant United States attorney general, and A. S. Van Valkenburg, United States district attorney for the western district of Missouri.

MATCH GOLF PLAY
IN FALL TOURNAMENT

Atlantic City, N. J., Nov. 17.—The first and second rounds in the match play of the annual fall golf tournament, held by the Country Club of Atlantic City, are being played today on the links of the club and a large number of prominent golf enthusiasts from New York and New Jersey are on the grounds of the club to witness the contest. The number of entries is exceptionally large and as there are some crack players taking part in the tournament, good sport is expected. All matches consist of eighteen holes. The semi-final and final rounds will be played tomorrow. A number of valuable cups are played for, among them the Governor's Cup, the President's Cup, the Atlantic City Cup and the Northfield Cup. In addition to the various cups prizes will be awarded to the runner up in each batch of sixteen contestants. A low score medal will go to the player leading the field in the qualifying round. All cups belong to the absolute property of the winners without further competition.

TO MAKE STEEL BY
ELECTRIC PROCESS

Dr. Herault Over From France
to Establish First Plant
of the Kind
EVER OPERATED IN AMERICA

Montreal, Que., Nov. 17.—Dr. P. L. T. Herault, technical director of the French Electro-Metallurgical Society, of La Paz, France, and the inventor of a well known process of electric smelting of metals, has been on a visit to Canada for the purpose of conducting experiments in electrical smelting on behalf of the Canadian government.

It will be recollected that the Dominion government voted \$15,000 for such experiments, after Dr. Haanel's commission had reported upon the European works where steel is produced by electrical processes. The Dominion experiments, from which great things are expected, will be conducted at Sault Ste. Marie.

Dr. Herault will also visit Syracuse, N. Y., where a steel company is erecting a plant under his license for electrical production of 80 to 100 tons of steel daily. This plant will produce tool steel and high class steel billets for piano and other special purposes, and will be the first of its kind on the American continent. Dr. Herault predicts a brilliant future for Canadian iron and steel, having regard to its close association with immense water power.

PRESIDENT'S MESSAGE
TO CONGRESS ON TUESDAY.

Washington, Nov. 17.—It has been decided that the president's forthcoming annual message to congress will be submitted to the senate and the house on Tuesday, December 5th. The first day of the session will be occupied fully by routine business of the two branches of congress. The senate will take an adjournment soon after the meeting on account of the death of Senator Platt of Connecticut. The house will probably be busy throughout the day in effecting its reorganization and in the drawing of seats for members.

MUCH POWDER BURNED AND MUCH
HOSPITALITY SHOWN THE PRINCE

New York, Nov. 17.—The British cruiser squadron, under the command of Prince Louis of Battenburg, which has been the guest of this city since the morning of November 9th, sailed today for Gibraltar, the next station on its route. The week which the squadron spent in this city was full of excitement and social events of more or less formality succeeded each other in rapid succession. Prince Louis, who is a sailor by profession, was at the hardships of sea-faring life, was almost overcome by the demands which this short season of social functions made upon him. Banquets, receptions, official and unofficial calls, balls and other affairs of a similar nature every day for a whole week is more than even a well seasoned seaman and courtier can endure without serious discomfort. The members of his staff and the other officers of the British squadron were equally overwhelmed by the hospitality of the Americans, but bore up well under the severe test. The men, also, had their share of entertainment but their share was not quite so exacting.

Everything passed off in the most satisfactory manner and it is to be hoped that the British visitors will take the most pleasant impressions of the comradeship of the officers and men of the United States navy and of the hospitality of the citizens of New York with them on their long

LOTS OF SUGAR ALL DESTROYED

Warehouse Burned Holding
10,000,000 Pounds
at Rocky Ford.

COST OF HEARST CAMPAIGN

Breaks Record in New York
Which Gov. Higgins
Held.

HE SPENT, HE SAYS, \$65,843

Ford, Colo., Nov. 17.—The mammoth sugar warehouse of the American Beet Sugar company at this place, is on fire. It is estimated that there are 10,000,000 pounds of sugar in the factory. The fire is practically under control, but it may be forty-eight hours before it will be safe to open the warehouse to ascertain the loss. It is feared that the loss may run as high as \$300,000, but no reliable estimate can be made at this time.

NOTHING NIGGARDLY ABOUT CANDIDATE HEARST.

Albany, N. Y., Nov. 17.—William R. Hearst, candidate for mayor of New York, on the municipal ownership ticket, certified to the secretary of state today that his total campaign expenses were \$65,843. This breaks the record for such expenses, which was formerly held by Governor Higgins, who spent during the last state campaign, \$22,000. Hearst says that he contributed about \$17,488 of \$83,331, which was spent by the finance committee of the municipal ownership league for the benefit of all the candidates on the ticket.

AMERICAN INDUSTRIAL OPPORTUNITIES IN RUSSIA.

Philadelphia, Pa., Nov. 17.—The American Academy of Political and Social Science will hold a session this evening to listen to an address by Baron Von Rosen, the Russian ambassador to the United States, on the subject of "American Industrial Opportunities in Russia." In the discussion which will follow the address, the following persons will take part: Herbert H. D. Purce, Third Assistant Secretary of State; John Hays Hammond of Pittsburgh, George Westinghouse of Pittsburgh, Melville E. Stone, general manager of the Associated Press; Henry C. Rouse, president of the Missouri, Kansas & Texas railway, and Clarence Cary of New York.

HEIR TO BELGIAN THRONE IS DEAD

Brussels, Nov. 17.—The Count of Flanders, brother of King Leopold and heir to the throne, died at 11:30 this morning. His death was due to inflammation of the respiratory organs. The count was born in 1837. The new heir to the throne of Belgium is Prince Albert of Flanders, only son of the late Count of Flanders. He is thirty years old, is married and has two children. Prince Albert is one of the most popular princes of the reigning house of Belgium. He is of a studious disposition and bears a striking resemblance to his uncle, King Leopold.

DRILLING KINGS WON AT MINING CONGRESS.

El Paso, Texas, Nov. 17.—Chamberlain and Make, of Mexico, champion rock drillers of the world, today won the W. C. Greene prize of \$1,000 and the El Paso Silver cup, by drilling 40 inches in Gunston granite in 15 minutes. This is 2 1/2 inches less than their world's record. Page brothers, of Bisbee, Ariz., won the second prize of \$600, drilling 30 and 13-16 inches, and Bradshaw and Melver, of Lubee, won the third prize of \$350.

DEATH OF GRAND DUKE, SOVEREIGN OF LUXEMBURG.

Hohenburg, Grand Duchy of Luxembourg, Nov. 17.—Grand Duke Adolph who was the reigning sovereign of Luxembourg, died today. He was born in 1817.
